

What are the benefits of “Green” Cleaning?

- Improved indoor air quality
- Healthier facilities for tenants, workers and customers
- Increased worker productivity
 - Reduced sick days and associated health care cost
 - Minimize exposure to aggressive chemicals
- Reduce water and air pollution
 - Peace of mind

What are the benefits of Biobased Products?

According to the Farm Security and Rural Investment Act (FRSIA), a biobased product is a product determined by the US Secretary of Agriculture to be a commercial or industrial product that is composed, in whole or in significant part, of biological products or renewable domestic agricultural materials or forestry materials. Biobased products are thought to be excellent alternative to products made from petroleum because they

- are domestically produced and support the U.S. economy.
- help to reduce our country’s dependency on foreign energy.
- are generally better for the environment to produce and use.
- support our farms and our communities.

CLEANING “GREEN”

Presented by:

pacific janitorial supply

&

Spartan Chemical

July 24, 2008

8:30 am - 12:30 pm

What is "Green" Cleaning?

A "Green" cleaning program is a complete approach to cleaning. "Green" cleaning is about examining the entire cleaning process based upon the assessment of space, products, and work practices to maximize cleanliness, while at the same time, reducing unnecessary hazardous cleaning chemical exposures to patients, staff and visitors. The process focuses on improving indoor air quality, recycling, and minimizing the use of raw materials and toxic products that require disposal.

Cleaning green is here to stay, and we believe it will revolutionize the cleaning industry.

Come and listen as we speak on the various aspects of "Green" cleaning, its origins and importance.

We will present first hand, up-to-the-minute information regarding U.S.G.B. Council, LEED, Federal and State Government recommendations for "Green" cleaning.

We will give you new insights and strategies for the development of a program for your facilities.

Already many schools, manufacturing, lodging, hospitality, Government subcontractors, retail and others are on board

Learn how you can get started.

Agenda

Join us: July 24, 2008

From: 8:30 am - 12:30 pm

Location: Pacific Janitorial Supply
2175 Martin Ave.
Santa Clara, CA. 95050

Agenda:

- 8:30 am - 8:45 am Registration
 - 8:45 am - 10:30 am Seminar
 - 10:30 am - 10:45 am Break
 - 10:45 am - 12:00 pm Seminar
 - 12:00 pm - 12:30 pm Lunch and exhibits of the latest in "Green" ...
- Chemicals
 - Equipment
 - Paper Products
